DIARY NOTES

DD/S *W L*

24 April 1963

25X1A9a
25X1A9a

1. Gates Lloyd, [REDACTED] and I met with [REDACTED] to talk about how to start out the proposal to buy an IBM 7090 computer. I requested everyone to make his contribution forthwith so that we could get this matter forward promptly for decision. *H*

2. I agreed to have lunch on Monday, 29 April, with John Bross and Bob Amory to present to Bob our ideas on preliminary planning for additional construction at Langley.

3. Jim Garrison discussed several items with me:

25X1A6a

a. I talked to Jim again about using [REDACTED] Officer [REDACTED] (Jim is still holding out, but I think he will come around.) *H*

25X1A9a

b. Jim reported that he thought it entirely possible for us to get 50,000 square feet of space in a commercial building on Wilson Boulevard if we would pay for the lease long enough to allow GSA to crank it into their budget schedule. I told him to get all of the facts without delay. (I think we will want to pursue this seriously.)

c. I talked to Jim at some length about the development of a reporting system from the Office of Logistics to the Deputy Director (Support). I emphasized that I was determined to stop "managing by exception" and that I envisaged a reporting system which would cover the activities of his entire office. I emphasized that I wanted almost everything in chart form with a minimum narrative which would be supplied by personal appearances of selected individuals to explain and elaborate on the statistics presented in the charts.

25X1A9a

4. [REDACTED] Chief of Station, [REDACTED] accompanied by [REDACTED] was in to call on me.

25X1A6a
25X1A9a

25X1A6a

a. He explained that he would be reluctant to start moving our people to [REDACTED] on a fragmentary basis. He also said that there

25X1A6a were only three sets of vacant quarters at [REDACTED] at the moment. 25X1A6a
We agreed that, should the [REDACTED] vacate 25X1A
[REDACTED] for any reason, we would have a different situation on
our hands and should reconsider the whole question of locating some
of our functions there.

25X1A9a

25X9 b. Jake thought that [REDACTED] was doing a completely adequate
job. He pointed out, however, that [REDACTED] is getting to be a rather 25X1A6a
sizable station [REDACTED] people) and that the Chief of Support has adminis-
trative supervision over all of the satellite units, such as Communications,
Audit, etc. He believed strongly that this position should be a grade
GS-14 and possibly a grade GS-15. [REDACTED] explained that they have 25X1A9a
asked that it be reclassified at the GS-14 level, and I told him to let me
know if they had any trouble.

c. Jake thought that, if the communications group in [REDACTED] was 25X1A6a
to be "beefed up" to a regional activity, their senior man should be more
than a grade GS-11, which is presently the case.

25X1A12 d. We discussed at some length Jake's problems with General
[REDACTED] I gathered that Jake communicates with him very little except 25X1A12
by memorandum, which General [REDACTED] never answers. This seems
unfortunate, but I doubt if any other Chief of Station under the same
circumstances would have a better relationship.

* * * * *

25X1A9a 5. At the Executive Committee Meeting this morning General Carter said
that Congressman Gallagher was chairing a committee which proposed to inves-
tigate the use of the polygraph by Executive Agencies. He emphasized that he
wanted to be thoroughly briefed before we made any response to this committee.
Larry Houston said that as far as he knew the committee had not asked us to
participate. General Carter said that the Inspector General had all the dope
on this matter. I checked with Jack Earman immediately after the meeting,
who said that General Carter had sent to him the paper which we recently pre-
pared on polygraph procedures in CIA along with a proposed letter for the
Director to send to Secretary McNamara. Jack also had a paper which Bob
[REDACTED] had given him concerning use of the polygraph by the National Security
Agency and another paper which Jim Cunningham had given him listing Department
of Defense personnel working with the [REDACTED] who had not 25X1A
been polygraphed. Jack didn't seem to know why he had all these papers or what
he was supposed to do with them.

25X1A2d1

7. Jim Garrison recommended again that [REDACTED] be promoted to grade GS-16. I told him that I thought we had enough room left in the DD/S allocation to put these promotions through.

25X1A9a

8. Jim reported that the [REDACTED] I told him to be cooperative.

25X1A12

25X1A6a

9. [REDACTED] will be leaving in a few days for a trip to [REDACTED] and [REDACTED] I told him that I would be very interested in his general observations of the Support picture at these stations and asked him to brief [REDACTED] specifically on my plans for his assignment to the Benefits and Services Division in the Office of Personnel when he returns from [REDACTED]
